Elson S. Floyd
Office of the President
Washington State University
P.O. Box 641048
Pullman, WA 99164-1048

Dear President Floyd:

As members of a multi-jurisdictional, cooperative group with the mission of ensuring a sustainable supply of water on the Palouse, we support WSU's efforts to secure state funding for a reclaimed water facility.

Because three previous efforts have been unsuccessful, we believe a coordinated campaign is needed to persuade Washington legislators and the governor to approve funding during their 2009 session. We would like to develop a strategy to mobilize public support for the project, and would welcome WSU's participation. We are also interested in being briefed on the details of the proposed WSU budget request.

With so many demands upon the state budget, it is vital that every voice be heard. We look forward to hearing from you regarding this matter of great importance to the future of the university and our communities.

Sincerely,

A handwritten signature in black ink that reads "Mark Workman".

Mark Workman, Chair,
Palouse Basin Aquifer Committee
