What? Research Colloquium

When? September 27th, 4:30 PM – 8:00 PM

Where? Best Western Plus University Inn, Moscow ID

Meeting Goal: Identify the processes and communication protocols needed to better coordinate needed research within the academic community to help evaluate the best future water supply alternatives.

Meeting Objectives:

Objective 1: Create an environment where all participants feel comfortable giving input.

Objective 2: Increase understanding about PBAC's purpose, mission and research needs.

Objective 3: Understand what participants hope to gain from the meeting, and from a long-term relationship with PBAC.

Objective 4: Better understand the perceived progress and process barriers between PBAC and the academic community.

Objective 5: Identify process and other solutions to promote improved relationships and progress between PBAC and the academic community.

Objective 6: Identify potential representatives within the academic community to help implement future processes, research, and efforts.

Objective 7: Clearly identify next steps, assignments, and deadlines.

Agenda:

4:30 PM – 4:45 PM: Social

4:45 PM – 5:00 PM: Introductions

5:05 PM – 5:30 PM: Meeting Presentations – Palouse Water Alternatives

5:30 PM – 8:00 PM: Facilitation
